

PCARC Minutes
April, 1999

Old Business:

1. Don gave an update on the radio raffle. Tickets are about all gone. The club has made money with this venture and everyone seems to be having a good time since everyone claims to have the winning ticket.
2. Everyone was reminded about the Tour De Ranch and the Sunny Hills bike/run events later this month.
3. A antenna work party here at the club will be held Saturday March 13, 1999 at or around 9:00 am to install several new antennas. Everyone is invited to attend.
4. Don discussed several issues regarding FCC rules and regulations As the FCC is cracking down on violations on the Ham Bands. The FCC is currently monitoring all Ham Bands looking for violators and issuing citations .One of the most common violations has been not properly Identifying your call sign at the Required 10 minute intervals.
5. Dave N4YEO, gave the club a outdoor bench for members to use And it is located outside the front door of the club house. Discussed the need if any to secure bench to keep it from being stolen.
6. It was discussed that the club is growing and that we may want to think about holding just the business meetings elsewhere due to the growing size.

7. There are several new hams on the air. Discussed ways that they can be made to feel welcome on the air.

8. Don gave a report on the 2-10 link repeater. Still no luck finding a replacement radio. Old radio too costly to repair. Will continue to look for replacement rig.

Being no other business, the meeting was adjourned.

Respectfully submitted,
Tom Cook KF4VRX
Secretary
