

PCARC Minutes
April 2000

Old Business:

1. The club received a letter and a patch from the Boy Scouts for our participation with the Jamboree On The Air event back in October of last year.
2. Natures Gallery donated \$156.00 to the club in appreciation for The club's support of the events held each year in November.
3. Discussed the 2-10 link. It needs a new 10 meter rig to make it work properly. After the discussion a motion was made and passed to purchase a new rig. Jim will get a new one and get the 2-10 link back operating correctly.
4. Discussed the old 10 meter rig that had been in the 2-10 meter link system. The rig is ok but was not compatible with the system as it stands now. Decided to sell the radio to highest bidder at the next business meeting.
5. Jim gave a report on the Atlas 350 HF rig that had been sent off for repair. It is back but still not operating correctly. It will be sent back to Pensacola to be rechecked.
6. The lock on the club house Has been changed so that now you must have a key to gain access to the building. As it stands now only the four club officers have keys to get in. If you would like to use the facilities, contact one of the club officers and make arrangements.

7. The TA33 JR antenna was sold to the Highest bidder at the price of \$115.00. It was sold 'As Is'. There were only two bids made on the antenna.

Being no other Business, the meeting was adjourned.

Respectfully submitted,

Tom Cook, KF4VRX

Secretary
