

PCARC MINUTES
January 2000

Old Business:

1. Jim gave a report about the work party that was held back on November the 20th. They were able to get one coat on the roof. Discussed the need to get one more coat of coating on the roof before the winter rains begin. Will try to get this done as soon as time permits. Thanks goes out to all who helped with this project.
2. Discussed the tower project. It was put on hold due to the fact that the tower is in bad shape. The last 20 feet of the tower needs to be replaced as well as the new rotor installed. Talked about several options as to how to fix. Will try to get a bucket truck to do the work with as the top is unsafe to climb. Also asked for club members to keep a look out for two 10 ft tower sections so the tower can be repaired.
3. Bob Steel gave a report on the Nature's Gallery. He said that the event was a success and thanked everyone who helped with the event.
4. Jim has the 2-10 link controller in and wired up. He plans on getting the machine back on the air soon. The frequency will be the same 147.520 simplex.
5. Discussed the possibility of having another radio raffle. Asked everyone to think about what kind of radio to buy to raffle off and how many tickets to sell.
6. Reminded everyone that club dues are due this month.

Health and Welfare:

1. K8INF - Bill Parker has passed away.
2. KO4ZR - Don Callahan is back in BMC with Lung problems.

Being no other Business, the meeting was adjourned.

Respectfully submitted,
Tom Cook, KF4VRX
Secretary
