

PCARC MINUTES  
March 2000

Old Business:

1. Jim reported that Natures Gallery would like to give the club a Donation in recognition for all of the communications assistance that the club has provided in years past with the events held in November. He said that it would most likely be a cash donation around \$100.00 to \$150.00 dollars. After discussing this, it was felt that this would be good for the club, and that we should write a "Thank You" letter expressing our gratitude.
2. Discussed the survey that Jim sent out concerning the ARRL video library set. Talked about what tapes the club might want to get and how everyone would want them to be used. Decided to wait on the issue till we have more input from the members.
3. Had a club member inquire about the TA33 JR antenna that is hanging on wall in the club house. He wanted to know if the club might be willing to sell it. A lengthy discussion was held on this topic. Finally, a motion was made to sell it by way of a sealed bid. This motion brought up further discussions, and it was then decided that the club would sell the TA33 JR by way of sealed bids and that there would be a minimum bid price of \$50.00. The motion was made once more and passed. Also it was stated that the antenna would be sold 'As Is'. The bids are to be turned into Dave N4YEO, and the bids will be opened at the March business meeting.

Being no other Business, the meeting was adjourned.

Respectfully submitted,

Tom Cook, KF4VRX

Secretary
