

PCARC Minutes
May 2000

Old Business:

1. Several members came down to the clubhouse and worked on the Tower and rotor project. Two new tower sections were put into place to replace some bad sections, and the new rotor was installed as well. A big thanks goes out to all who helped with this project as this will be a great asset to the club.

2. Discussed letting the Cedar Grove Aux use the clubhouse for a tailgate party. Approved them using the facility.

3. Jim gave a report on the ongoing work and condition of the club's 2-10 meter link repeater system. It is working well and the 10 Meter band has been wide open making for some good long distance contacts. Also discussed the ID on the system. There has been a complaint made about the machine. Jim has set the timer so that it will only ID when in use. An E-Mail letter was sent to the FCC via Mr Riley Hollingsworth, Special Counsel for Amateur Radio Enforcement on the issue. It was decided that before any action was taken on the complaint by the club that we would wait and see what action Mr Hollingsworth would suggest.

4. The old Uniden 2510 was sold to the highest bidder for \$110.00. There was only one bid received. The rig was sold in "as is" condition.

5. Kevin KC7FPF will be creating a new web page for the club. It is in the design phase now and will soon be online. Any suggestions Or comments about the web page should be directed to Kevin.

Health and welfare:

Brother Joe, KE4SOA continues to have problems with his eyes along with other health problems.

Don KO4ZR is doing better and has been able to make it to several meetings lately.

Being no other Business, the meeting was adjourned.

Respectfully submitted,
Tom Cook KF4VRX
Secretary
